PAVING

As this project involves more than 1,000 tons of hot mix asphalt, the County will permit INCREASED OR DECREASED price adjustments in the cost of asphalt. For fuel price adjustments, at least 500 gallons of fuel based on the DOT equipment standards are required for a price adjustment, and then, only in those months when the price fluctuated more than five percent.

NJDOT maintains a [web site of index rates for asphalt and fuel](#) that are adjusted monthly. The law provides that when the quantity or equipment use thresholds are reached, fuel price adjustments are made, using the change in index rate from the time of bidding to when the work was performed. The change is treated as a "pay item" in construction contracts.
